

3 WAYS YOUR PEO BENEFITS FROM USING AN ACTUARY

Actuaries use a PEOs **past** loss data to develop **present** reserve amounts that are adequate to pay for **future** losses that likely will occur.

Actuaries can help develop a **predictive framework** that allows a PEOs risk & safety consultants to be more **productive and efficient.**

Whether a PEO is being bought or sold, actuaries provide more **reliable and accurate financial data** for both seller and buyer to base their valuations.
